# ABOUT TVS RUBBER

TVS Rubber is the flagship brand of **TVSMobility Polymeric Products Private Limited** (Formerly known as **Sundaram Industries Private Limited**.) We are a leading manufacturer and supplier of rubber, metal bonded and fabric reinforced rubber products for Automotive, Defence, Railways, Construction & Earthmoving equipment. We are based in Madurai - Tamil Nadu, India, having a rich legacy spanning over six decades. We serve OEM and aftermarket clients across the globe with strategically located warehouses.

## OUR STRENGTH

Over 60 years of expertise in rubber engineering

Top-notch products designed by a R&D team of expert engineers and rubber technologist

Domestic & International Logistics Seamless supply across continents

Proven legacy of supplying to OEMs in various industries across the globe

State-of-the-art manufacturing facility and in-house NABL accredited lab

International Certifications ISO 9001, 14001, 45001, IRIS, IATF, and various quality awards

## HIGH PERFORMANCE RUBBER TRACKS

Introducing TrackAce & TopTrack, Rubber Tracks crafted for the toughest terrains and the most demanding machines. Designed with precision and backed by decades of materials engineering expertise, our tracks are built to endure the harshest agricultural fields and construction sites across the globe.

## TRACKS FOR DEMANDING APPLICATIONS

**Agricultural Equipment**  
Combine Harvester, Grain Cart, Crawler

**TRACK SIZE**  
(Width (mm) x Pitch (mm) x Number of Links)

- 450 x 90 x 60
- 500 x 90 x 60
- 500 x 90 x 54
- 550 x 90 x 53
- 550 x 90 x 56
- + **MORE SIZES**

We do customized development for OEMs and large volume buyers.

**Construction Equipment**  
CTL, Mini Excavator, Dumper

**Engineering Equipment**  
Spider lift, Mini Driller, Robotic Crawler

**Specialty Use**  
Military Utility Vehicles, Forestry Machines

## KEY FEATURES OF OUR TRACKS

**MADE WITH ADVANCED RUBBER FORMULATION**  
Provides outstanding resistance to abrasion, cuts, and harsh environmental conditions.

**HEAVY-DUTY METAL LUGS**  
Engineered for rugged performance, our steel lugs ensure superior traction, long wear life, and reliable drive force transmission.

**ALL-TERRAIN, ALL-SEASON READY**  
Proven performance across varying soil conditions and climates—be it mud, sand, rocky and gravel.

**REINFORCED WITH STEEL WIRE**  
Continuously wound, high-tensile steel cords provide exceptional structural integrity and dimensional stability.

**LOW VIBRATION & OPERATOR COMFORT**  
Optimized tread geometry minimizes vibration and noise, ensuring a smoother ride and less strain on equipment and operator.

**CUSTOMIZATION & OEM SUPPORT**  
We offer tailored solutions for specific machines, including tread patterns, lug design, reinforcement and dimensions - ideal for OEMs and high-volume buyers.
